

The Cognitive Neuroscience Lab, headed by Prof. Dr. Ulrike Krämer ([cns-luebeck.de](mailto:cns-luebeck.de)) at the Department of Neurology, University of Lübeck, is seeking to hire a

## Post-doctoral Researcher

starting by April 2020, initially for 3 years, with the option of extension. The post-doc is expected to get involved in the lab's research projects on empathy, action understanding and aggression and should develop her/his own line of research within the lab's research framework.

We are looking for a person with a promising track record in the field of cognitive neuroscience, who holds a degree in psychology, cognitive science, physics, or engineering. Expertise in human neuroscience methods and experience in programming and statistical analyses (MATLAB, R) is expected. Persons with a background in advanced EEG analysis methods who are interested in applying this knowledge to social neuroscience questions are especially welcome to apply.

The position involves teaching seminars in Basic Psychology and Cognitive Neuroscience (typically 4 hours/week during the semester). As teaching is primarily in German, candidates are expected to have German language proficiency or be willing to learn German.

The lab is located at the Center for Brain, Behavior and Metabolism (CBBM; [cbbm.uni-luebeck.de](http://cbbm.uni-luebeck.de)), which offers an excellent and state-of-the-art research environment. At the CBBM, several EEG, an fNIRS-system and a research dedicated Siemens Skyra 3T MRI are available.

The University of Lübeck is a modern university specializing in Medicine, Computer Science, Molecular Biology, Psychology, Biomathematics and Medical Engineering. Internationally renowned research and high standards of academic tutoring characterize the profile of the university.

Payment will follow salary group E13 TV-L (full time), if conditions based on German Public service regulations are satisfied. The University of Lübeck is an equal opportunities employer. Applications from female candidates are strongly encouraged. In case of compatible qualifications, preference will be given to people with disabilities

Questions regarding the position can be directed to Prof. Ulrike Krämer ([ulrike.kraemer@uni-luebeck.de](mailto:ulrike.kraemer@uni-luebeck.de)) or Dr. Macià Buades Rotger ([macia.rotger@neuro.uni-luebeck.de](mailto:macia.rotger@neuro.uni-luebeck.de)), who currently holds the position. Applications should include a cover letter, CV, list of publications and contact details of two potential references. Applications should be sent as single pdf-file to Ulrike Krämer (email above). Applications will be considered until February 15<sup>th</sup> or until the position is filled (whichever happens first).
